

## Certificate for TP qualification

Surname:	First Name:
Licence number:	Qualification period (from/to):

## Certificate for Tandem Pilot Qualification

Prerequisites to take part in the TPQ	Name / signatures Tandem-Examiner	
Freefall time (min 4 hours)	within the last 36 months (max. 60 months)	
Jump numbers (At least 450 jumps of which 50 in the last 12 months)		
Time in sport since acquiring parachuting licence (minimum 2 years)		
Participation in a recognised canopy course	Separate evidence	
Half day internship in rigging loft	Separate evidence	
Basic understanding of the 7 (seven) core topics of parachuting. Theory licence exam (max. 1 mistake per topic permitted)	Separate evidence	
First Aid course (at outset of TPA) At least 8 hours, no older than 24 months	Separate evidence	
Medical certificate (at outset of TPA)	Separate evidence	

## Certificate of pre-training for Tandem Pilot Qualification

I have read THB Part 1 and in particular am familiar with chapters 1-5.

---

Tandem pilot candidate: Name / signature

Content of pre-training	Place / Date	Name of briefer
Candidate has been briefed on and has observed: * packing of tandem equipment		
Candidate has been briefed on and has observed: * Drogue setting and rigging		
Candidate has been briefed on and has observed * Knowledge of functional tandem equipment relationships		
Candidate has been briefed on and has observed * AAD technology for tandem equipment		
Candidate has been briefed on and has observed * Sample real-life briefings		
TPQ has been briefed on and been approved: * follow-out tandems (FS and/or video)		

### Certificate of content for Tandem Pilot Qualification

Content of Tandem Pilot Qualification	Place / Date	Name / signature of Tandem-Examiner
TPQ has completed the strength test for flaring a tandem: * multiple flared with weight simulator		
TPQ has completed at least 3 practice descents: * competence in belly flying and stable exits		
TPQ has completed at least 1 side-spin exercise: * perception check with outside video		
TPQ has basic knowledge of aerodynamics: * canopy flight / flight plans / steering techniques		
TPQ has basic knowledge of canopy flight: * two declared landings in a 25m radius		
TPQ has basic knowledge of dive plans: * exit order		
TPQ has detailed knowledge of emergencies * malfunctions / hanging harness training		
TPQ has knowledge of tandem equipment: * gear check with intentional errors		
TPQ has knowledge of tandem equipment: * untangling of a RAM-air canopy		
Candidate has been briefed on: * Philosophy of tandems		
Candidate has been briefed on: * Air legislation (airspace structures / visual flight rules)		
Candidate has been briefed on: * Air legislation (legal basis for tandem descents)		
Candidate has been briefed on: * Human factor: Poor conduct in extreme situations		
Candidate has been briefed on: * Human factor: Human error as cause of accidents		
Candidate has been briefed on: * Human factor: Hypoxia		
Candidate has been briefed on: * Freefall (centre of gravity/relative wind)		
Candidate has been briefed on: * Managing emergencies		
TPQ was extensively tested on judgement: * Meteorological evaluations		

The TPQ has successfully taken part:

yes  no
